Welcome Letter from Founders Dave And Ron

Dear Friend,

If you are researching security, surveillance systems, or electrical work for your home or business you are in the right place. Most providers may offer similar services, but not all providers of these services are created equal. We have been servicing all of Connecticut since 1999 and have helped over 10,000 people! Our loyal clients and the referral business they have given us has made Integrated Security Solutions Connecticut's largest security systems provider.

At Integrated Security Solutions, our mission is to provide you with the same service we would give to our own families. Our biggest reward is to hear how the people we have helped love what we have done for them and their families. To support our mission and to help you choose the right electrical and security provider for your unique needs, we put together this free report, The Top 7 Things You Should Know Before Choosing Your Home or Business Security System Provider. We hope the information we have included here will help you find the right solutions.

Sincerely,

Dave & Ron

P.S. We invite you to call us at 860.442.2626 to schedule your no-risk complimentary consultation, which will be personally completed by one of us!

Closing Letter from Founders Dave and Ron 12

DO THEY HAVE EXTENSIVE EXPERIENCE?

One of the reasons people hesitate to take the next step in securing their homes or businesses is not knowing if the provider stands behind their work. Founders Dave and Ron are committed to earning your trust and want to exceed your expectations. Because this is so vitally important to building a long-lasting relationship, Integrated Security Solutions offers a 100% satisfaction guarantee during your installation process.

If you notice something during installation that you aren't happy about, we will work with you until you are 100% satisfied! We appreciate the opportunity to work with you and want you to feel confident in your decision to choose Integrated Security Solutions.

CAN YOU TRUST THEM?

Have you ever been leery about letting a stranger into your home to provide a service you may need? You are not alone and we are aware of this common concern. All our specialists have gone through extensive background and qualification checks to ensure your trust and safety.

Our team has gone through extensive training not only in all our fields of service, but also in how to present themselves to our clients. Our team is well groomed, dressed professionally, and understands we aren't just safeguarding your properties and loved ones, we are building relationships. Our growth since 1999 is a testament to this cornerstone principle!

DO THEY HAVE A GUARANTEE?

One of the reasons why people hesitate to take the next step in securing their homes or businesses is not knowing if the provider stands behind their work. Founders Dave and Ron are committed to earning your trust and want you to exceed your expectations. Because this is so vitally important to building a long lasting relationship, Integrated Security Solutions offers a 100% satisfaction guarantee during your installation process. If you notice something during the course of installation that you just aren't happy about, we will continue to work together with you until you are 100% satisfied! We appreciate the opportunity to work with you and we want you to feel confident in your decision to choose Integrated Security Solutions.

DO THEY OFFER 24 HOUR EMERGENCY ASSISTANCE?

One benefit in choosing Integrated Security Solutions is the peace of mind you'll have knowing you have support when you need it, 24 hours a day, 7 days a week. It's natural when you are handed the keys to your new, high tech security system, that you may need help if things go awry. Whatever challenge you are having, we will be there to support you anytime you are in need, day or night. At the end of your installation, you will be provided the information you need for whenever you may need it. We have you covered!

DO THEY HAVE FLEXIBLE CONSULTATION TIMES?

In today's fast paced world, few people can afford to take time off in the middle of their workday for appointments. We respect your time and want to simplify our consultation with you.

Founders Dave and Ron handle all consultations and they will meet you after your workday and even on weekends. Additionally, your no-risk consultation is 100% FREE.

WILL THEY BE CAUTIOUS AROUND YOUR PETS?

Being a pet owner can be stressful when having work done at your home. Will your pet get out of the house? Will the technician be kind to your pets? Should I bring my pet somewhere during the installation process for peace of mind?

We are aware of these concerns of pet owners and take them seriously because we are animal lovers! During your consultation, we will also discuss your furry family members to find out if there is anything we need to know prior to entering your home to begin installation.

DO THEY OFFER SAME DAY CONSULTATIONS?

If you or a neighbor have been burglarized, or you see something in the news that calls you to take immediate action, you want answers right away. We understand there are times when people need urgent solutions to their fears. Integrated Security Solutions is here for you for same day consultations.

When you call to schedule your FREE consultation, one of our founders, Dave and Ron, will personally come to your home or business to discuss your options and address all your concerns that same day! We want to be there for you in your time of need, when you need it.

ARE THEY RECOMMENDED BY LAW ENFORCEMENT?

Even though this report was titled, The Top 7 Things You Should Know Before Choosing Your Home or Business Security System Provider, we simply can't ignore the importance of being endorsed by law enforcement when you're seeking electrical and security systems providers.

What bigger compliment could we ever have than the support of local law enforcement? They have seen it all - people and property saved by our systems and people who fall victim because they don't have a security or alarm system. Don't be a victim.

Closing Letter From Founders Dave And Ron

Dear Friend,

We hope this report was informative! If you are already in contact with a different provider, we encourage you to follow up with them with any new questions or concerns based on what you've learned today. Additionally, we invite you to take advantage of our complimentary consultation - whether it's for your first consultation or for a second opinion.

We understand that there is much to consider when choosing an electrical or security systems provider. We are confident, though, that the information you have now will help you choose the right Connecticut provider for your needs. More importantly, please know that we are available to answer your questions and help you find the best options for your home or business. If you have any questions for us at Integrated Security Solutions, feel free to call us at 860.442.2626 and we will be glad to answer any questions you may have.

To your safety,

Dave & Ron

P.S. We invite you to call us at 860.442.2626 to schedule your no-risk complimentary consultation, which will be personally done by one of the two of us!
